

Plant Background

- Fourche Creek WWTP
 - Little Rock, Arkansas
- EnviroMix Product:
 - BioMix™
- Mixing Application:
 - Anaerobic Digestion (2%)
- 16 MGD Facility
- Design Engineer:
 - Hawkins-Weir

November 2012 Plant Construction

Master Control Panel Pre-installation

Air Receiver Tank

Air Receiver Enclosure

Closed Valve Control Panel (VCP)

Open Valve Control Panel (VCP)

Nozzle Header Installation – Concentric Rings on Sloped Floor

Nozzle Header Installation – Concentric Rings on Sloped Floor

Header Supply Piping Support

Ball Valves coming from the VCP to header supply piping

Sliding Vane Compressor Package

Standard Operating Pressure

Valve Control Panels

Fourche Creek Anaerobic Digesters
