

Regional Focus:

THE CAROLINAS

With more than 20 installations in operation or under construction, EnviroMix has been working in the Carolinas since the company's inception. We continue to provide treatment plants in the region solutions that reduce energy consumption, simplify maintenance, and optimize process conditions, enabling highly scalable and flexible operations. Projects in North Carolina and South Carolina incorporate BioMix Compressed Gas Mixing — EnviroMix's flagship technology — and powerful technologies including BioCycle-D Optimized Aerobic Digestion Process, CAMix Cyclic Aerated Mixing, AquaBlend Potable Water Mixing, and the award-winning BioMix-DC Enhanced Anaerobic Mixing.

Mebane Bridge WWTP

Consultant: W.K. Dickson
Technology: BioMix
Application: Sludge Holding Tank
Start-up: April 2020

SGWASA WWTP

Consultant: CDM Smith
Technologies: BioMix,
BioMix-DC
Design Flow: 6 MGD
Application: BNR Selectors
Start-up: May 2015

"We like the whole EnviroMix system, and obviously we've gotten positive results from it."

Cody Norwood, SGWASA Plant Superintendent

North Charleston SD

Consultant: Owner
Technology: BioMix
Application: Sludge Holding Tank
Start-up: June 2020

Hampstead WWTP

Consultant: Mike Gallant, PE
Technology: CAMix
Application: Equalization Tank
Start-up: Mar 2023

BJWSA – Purrysburg WTP

Consultant: Goodwyn Mills Cawood
Technology: AquaBlend
Applications: PAC Contactor
Start-up: Under Construction

Rifle Range Road WWTP

Consultant:
Black & Veatch
Technology: BioMix
Design Flow: 10.6 MGD
Application: BNR Selectors
Start-up: Nov 2020

BJWSA – Hardeeville WRF

Consultant: HDR
Technology: BioMix
Applications: BNR Selectors, Equalization Tank
Start-up: Apr 2018
