

Regional Focus:

MID-ATLANTIC

With 20+ installations in operation or under construction, EnviroMix has been working in the mid-Atlantic states of Pennsylvania and West Virginia since 2012. We provide treatment plants in the region solutions that reduce energy consumption, simplify maintenance, and optimize process conditions, enabling highly scalable and flexible operations. Powerful technologies including BioMix Compressed Gas Mixing — EnviroMix’s flagship technology — and BioCycle-D Optimized Aerobic Digestion Process have been incorporated into a variety of applications, including channels, aerobic digestion, septage receiving, BNR processes, equalization, and sludge holding. To learn more about EnviroMix’s mixing and process technologies, visit www.enviro-mix.com/technology.

“In regard to maintenance and ease of operation, it just doesn’t take much effort... It kind of runs itself.”

Donnie Hayden, Bradford Operations Manager

Bradford Sanitary Authority

Consultant: Gannett Fleming
Technologies: BioCycle-D, BioMix
Design Flow: 8.8 MGD
Application: Aerobic Digester, Channels
Start-up: Nov. 2015

Clairton Municipal Authority

Consultant: KLH Engineers
Technology: BioCycle-D
Design Flow: 6.0 MGD
Application: Aerobic Digester
Start-up: Apr. 2018

Newport Borough Municipal Authority

Consultant: Larson Design Group
Technology: BioCycle-D
Design Flow: 0.91 MGD
Application: Aerobic Digester
Start-up: May 2020

Abington RWA

Consultant: Gannett Fleming
Technology: BioMix
Design Flow: 2.5 MGD
Application: BNR Selectors
Start-up: Jul. 2015

Upper Montgomery Joint Authority

Consultant: Woodard & Curran
Technology: BioMix
Design Flow: 2.0 MGD
Application: BNR Selectors
Start-up: May 2019

Pleasant Hills WWTP

Consultant: Gannett Fleming
Technology: BioMix
Design Flow: 5.0 MGD
Application: Channels
Start-up: Feb. 2018

Piney Creek WWTF

Consultant: Thrasher Engineering
Technology: BioMix
Design Flow: 3.5 MGD
Application: Septage Receiving Tank
Start-up: Feb. 2018
