

Regional Focus:

NEW ENGLAND

With a dozen installations in operation or under construction, EnviroMix has been working in the New England states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut for more than 10 years. We provide treatment plants in the region solutions that reduce energy consumption, simplify maintenance, and optimize process conditions, enabling highly scalable and flexible operations. Powerful technologies including BioMix Compressed Gas Mixing — EnviroMix's flagship technology — and the award winning BioMix-DC Enhanced Anaerobic Mixing have been incorporated into a variety of applications, including sludge holding, aerobic digestion, septage receiving, and BNR processes. To learn more about EnviroMix's mixing and process technologies, visit www.enviro-mix.com/technology.

Nashua WWTP

Consultant: Wright-Pierce
Technology: BioMix
Application:
Sludge Holding Tanks
Design Flow: 16.0 MGD
Start-up: Oct. 2014

Brunswick WWTP

Consultant: Wright-Pierce
Technology: BioMix
Application: Septage Receiving Tank
Design Flow: 3.9 MGD
Start-up: Apr. 2017

“The money saved through the use of an efficient mixing system will have a significant, positive impact on our O&M budget.”

John Adie, (Former) Nashua Plant Operations Supervisor

Exeter WWTF

Consultant:
Wright-Pierce
Technology:
BioMix
Applications:
BNR Selectors,
Aerobic Digester
Design Flow:
4.5 MGD
Start-up:
May 2019

Pittsfield WWTF

Consultant: Kleinfelder
Technology: BioMix
Application: BNR Selectors
Design Flow: 17.0 MGD
Start-up: Oct. 2020

North Brookfield WWTP

Consultant: Kleinfelder
Technologies: BioMix, BioMix-DC
Application: BNR Selectors
Design Flow: 0.5 MGD
Start-up: Under Construction

MFN Regional WWTP

Consultant:
CDM Smith
Technology:
BioMix
Application:
BNR Selectors
Design Flow:
3.1 MGD
Start-up:
July 2018
