

Regional Focus:

TRI-STATE AREA

With a dozen installations in operation or under construction, EnviroMix has been working in the region that includes Alabama, Georgia, and Tennessee for more than a decade. We provide treatment plants solutions that reduce energy consumption, simplify maintenance, and optimize process conditions, enabling highly scalable and flexible operations. Projects in the tri-state area incorporate BioMix Compressed Gas Mixing — EnviroMix’s flagship technology — and powerful technologies including BioCycle-D Optimized Aerobic Digestion Process and the award-winning BioMix-DC Enhanced Anaerobic Mixing System.

Nashville – Central WWTP
 Consultant: Brown & Caldwell
 Technology: BioMix
 Application: Channels
 Start-up: September 2021

Canton WWTP
 Consultant: Atkins
 Technology: BioMix, BioMix-DC
 Application: BNR Selectors, Aerobic Digester
 Start-up: December 2023

Forsyth County Fowler WRF
 Consultant: ESG Engineering
 Technology: BioMix
 Application: Channels
 Start-up: April 2024

Albertville WWTP
 Consultant: Krebs Engineering, Inc.
 Technology: BioCycle-D
 Application: Aerobic Digester
 Start-up: May 2024

F Wayne Hill WRC
 Consultant: Hazen & Sawyer
 Technology: BioMix
 Application: Sludge Holding Tank
 Start-up: March 2013

Adairsville WWTP
 Consultant: Rindt-McDuff Associates
 Technology: BioCycle-D
 Application: Aerobic Digester
 Start-up: September 2021

Big Creek WRF - Fulton Cty
 Consultant: Brown & Caldwell
 Technology: BioMix
 Application: BNR Selectors, Channels
 Start-up: August 2023

East Perry WWTF
 Consultant: Burns & McDonnell
 Technology: BioMix-DC
 Application: BNR Selectors
 Start-up: Under Construction
