

Regional Focus:

UPPER MIDWEST

With more than 20 installations in operation or under construction, EnviroMix's installation list continues to grow in North Dakota, South Dakota, Nebraska, Minnesota, Iowa, and western Wisconsin. We provide treatment plants in the region with solutions that reduce energy consumption, simplify maintenance, and optimize process conditions, enabling highly scalable and flexible operations. Projects in the region incorporate BioMix Compressed Gas Mixing — EnviroMix's flagship technology — and powerful technologies including BioCycle-D Optimized Aerobic Digestion Process, FlexZone Adaptive Process Volume, and the award-winning BioMix-DC Enhanced Anaerobic Mixing.

To learn more about EnviroMix's mixing and process technologies, visit www.enviro-mix.com/technology.

Fargo WWTP

Consultant: Apex Engineering
Technology: BioMix, BioMix-DC
Design Flow: 21 MGD
Application: BNR Selectors
Start-up: September 2023

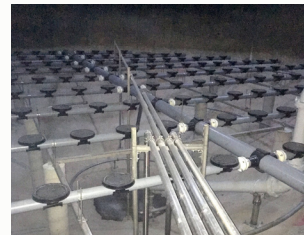

“BioCycle-D helps tie up the phosphorus in the sludge. And it's a great digestion product.”

Rob Bredeson, Detroit Lakes Water/Wastewater Supervisor

Detroit Lakes WWTP

Consultant: SEH Engineers
Technologies: BioCycle-D
Design Flow: 3 MGD
Application: Aerobic Digester
Start-up: December 2019

Worthington WWTF

Consultant: Bolton & Menk
Technology: BioCycle-D
Application: Aerobic Digester
Start-up: August 2023

Village of Turtle Lake WWTP

Consultant: CBS Squared
Technologies: BioCycle-D, BioMix-DC, BioMix
Application: Aerobic Digester, BNR Selectors, Equalization Tank
Start-up: Under Construction

Templeton Distillery

Consultant: Strand Associates, Inc.
Technology: BioMix
Application: BNR Selectors, Equalization
Start-up: December 2021

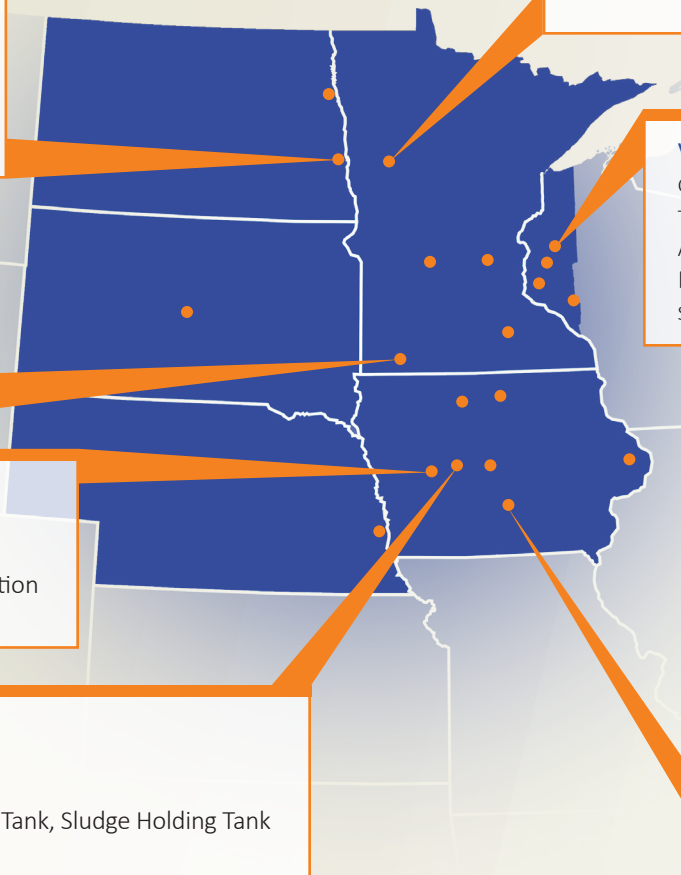

Pleasantville WWTP

Consultant: Snyder Associates
Technologies: BioCycle-D
Design Flow: 1.25 MGD
Applications: Aerobic Digester
Start-up: August 2022

Jefferson WWTP

Consultant: Bolton & Menk
Technology: FlexZone, BioMix
Application: BNR Selectors, Aeration Tank, Sludge Holding Tank
Start-up: Under Construction
