

## Regional Focus:

# LOWER MICHIGAN

With more than a dozen installations in operation or under construction, EnviroMix is providing treatment plants in lower Michigan with solutions that reduce energy consumption, simplify maintenance, and optimize process conditions, enabling highly scalable and flexible operations. Projects in the region incorporate BioMix Compressed Gas Mixing — EnviroMix's flagship technology — and powerful technologies including BioCycle-D Optimized Aerobic Digestion Process, FlexZone Adaptive Process Volume System, and the award-winning BioMix-DC Enhanced Anaerobic Mixing.

### Flint WWTP

Consultant: Tetra Tech  
Technology: BioMix  
Applications: Channels, Aeration  
Start-up: May 2022

### Materne North America

Consultant: Gosling Czubak  
Technology: BioMix  
Application: Equalization Tank  
Start-up: Sep 2019

### Allendale WRRF

Consultant: Moore & Bruggink  
Technology: BioMix  
Applications: Sludge Holding Tank,  
Equalization Tank  
Start-up: Under Construction

### City of Grandville CWP

Consultant: Moore & Bruggink  
Technology: FlexZone  
Application: Activated Sludge Trains  
Design Flow: 10 MGD  
Start-up: Feb 2024

### City of Portland WWTP

Consultant: Fleis & VandenBrink Engineering, Inc.  
Technology: BioCycle-D  
Application: Aerobic Digester  
Start-up: Apr 2024

**"Installing the EnviroMix FlexZone has made perfect sense from every aspect considered, including but not limited to electrical savings and alkalinity recovery."**

Scott Yonkers, Grandville CWP,  
Plant Assistant Superintendent

### City of Warren WRF

Consultant: AECOM  
Technologies: BioMix,  
BioMix-DC  
Applications: BNR  
Selectors, Anaerobic  
Fermentation Tank  
Design Flow: 50 MGD  
Start-up: Nov 2014

### Howell WWTP

Consultant: Hubbell, Roth & Clark  
Technology: BioMix  
Application: BNR Selectors  
Design Flow: 1.37 MGD  
Start-up: Jun 2021
